Preqin Private Equity Online: Performance Data

Do you need to know how well different funds and strategies have performed financially? Do you want to see net-to-LP performance for over 5,700 individual private equity funds to help you with your investment decisions or to benchmark your own performance?

Performance Analyst features performance metrics for over 5,700 private equity funds.

All key metrics are included: size, vintage, type, called-up (%), distributed (%), remaining value (%), value multiple, net IRR.

View the top performing firms and funds and use the advanced search to compare funds by strategy, location and vintage year.

Intricate search options help to create tailor-made benchmarks and peer groups.

Cash flow histories for many funds to help you model portfolio strategies.

Assess the track record of fund managers to help in your investment appraisal and strategy.

The screenshots show the 'Performance Analyst - Advanced Search' interface. It includes a search filter table with columns for Vintage, Type, Main Geographic Focus, Fund Size (Mn USD), Industries, and Countries / Regions. Below the filters is a table of search results with columns for Vintage, Type, Location, Fund Size (Mn USD), Industries, Countries / Regions, Include, and As At. A chart on the left shows 'Horizon IRR (%)' for different vintage years. A sidebar on the right shows 'Diff. (%)', 'Quantile', and 'As at' for a selected fund.
