

Infrastructure Online

November 2012

Welcome to Preqin Infrastructure Online Product Update, our subscriber-only newsletter. This month we are delighted to inform you about several new and upgraded features added to your Infrastructure Online service over the past month.

The current database features profiles for over 1,650 active infrastructure investors, over 350 fund managers and more than 630 infrastructure funds. These latest enhancements span each section and include the following:

- **Investor league tables** – view the largest institutional investors active in the infrastructure space by committed capital or reported assets under management. Filter this information by investor type and/or geographic location.
- **Infrastructure fund league tables** – view the largest unlisted infrastructure funds currently raising capital by target size, or those funds raised in previous years by final close size. Filter this information by fund type and/or primary geographic focus.
- **Fund manager contact search** – search our database of over 1,250 key investment professionals to identify relevant targets by specific surname, job title or firm name.

These new features are available to both standard and premium Infrastructure Online subscribers in order to further help you in your analysis of the private infrastructure market. Premium subscribers, as always, have the ability to download all of this information into an Excel document and conduct additional analysis on the data selected.

More than ever, Infrastructure Online is the most detailed and comprehensive information resource on the infrastructure market globally, and is a unique tool to help you in your business activities.
